

1stPayMobile®

READY TO START ACCEPTING MOBILE EMV PAYMENTS?

This solution gives business owners the ability to accept these payment methods all within a single device.

THE RP457C SERIES IS A SMARTPHONE MOBILE CARD READER THAT WORKS WIRELESSLY THROUGH BLUETOOTH TECHNOLOGY.

With the RP457c Series, your business can start accepting EMV, magstripe and NFC/contactless payments like Apple Pay®, within minutes.

WITH IT, YOUR BUSINESS CAN:

Accept EMV® chip & sign
and magstripe payments all
from your mobile device

Enjoy the convenience of
the small, pocket sized
design for easy portability

WHAT CAN THE RP457C PROVIDE THAT I DON'T HAVE THE ABILITY TO DO ALREADY?

Enable expanded forms of payment (from near field
communication enabled chip cards to smart card readers to
smartphone-enabled mobile wallets)

Deliver on the latest advancements in payment technology while
maintaining rigorous security standards and anti-fraud protection

WHO SHOULD USE IT?

The RP457c Series mobile card reader
provides business owners with a full-scale
solution to meet the growing consumer
demand for mobile payment acceptance.

READY TO ATTRACT NEW CUSTOMERS AND GROW YOUR BUSINESS?
